

Who We Were before Christ

Most of us don't have to think twice to know who we were before we met Jesus Christ. We know our whole life was centered in sin which led to drugs and alcohol. We lived to use and used to live. Very simply put we lived a lie... a life without Christ and that life led to sin and to addiction. We were people in a grip of a continual and progressive downward spiral in life that led to stealing, lying, cheating, sinning and dying all the while. These ends were always the same. Jails, institutions and death were our only present and our only future.

Thanks to our Lord Jesus Christ and God's love for us we are not what we use to be. Praise God, we are a new creation. And we acknowledge that there are still consequences for our sins on this earth but we also firmly believe that our God has completely forgiven us and that Christ has sanctified us through His Blood.
